Timeless design powered by electricity, fuel and the sun. Vehicles unapologetically conspicuous in their beauty and uncommonly light in their footprint. An unparalleled ownership experience, focused on the few. We are wired differently. And we know you are too.
It is easy to describe a responsible company. It is harder to be one. Karma is more than just a name to us. We act with intention, with an awareness of what we are doing, and how and why we are doing it. All cars have a soul, and that soul is us. Hundreds of people making thousands of decisions that, we hope, speak to you.
Our company, our vehicles and our passion are born and bred in California. We are influenced by the mountains, the desert, the ocean, the light. We live and work here, and that matters. We are creating history; no vehicle has been assembled in Southern California in decades. Until now.
Our people are the beating heart of our company. Individuals from the worlds of technology, aerospace, art, entertainment and automotive blend their diverse skills seamlessly to create a uniquely talented team.
Cars have become commodities. Design has taken a back seat, and most everything on the road looks the same. Not here. We designed our vehicles with proportions from the gods. The result: an almost primal beauty. Timeless and modern. Voluptuous and sensual. Created to elicit a visceral, emotional response.
The Revero’s exterior design language, with its flowing lines and muscular curves, is mirrored in the vehicle’s interior. The cabin is sumptuous; it cocoones you, overloading your senses with the carefully crafted mix of materials and exceptional craftsmanship.
If you drive less than 50 miles per trip, you may never buy gas again. Some of you will buy less than a gallon of gas for every 100 miles driven. We are not perfect, but we do what we can to produce an ecologically-sensitive product.
The badge on each Revero is hand-painted by an artist and set in a precision-machined ring of aluminum. Look closely and you may notice some subtle differences between each unique piece, so every car we make is truly one of a kind.
OUR BRAINS AND OUR BRAWN
The Revero is about feel, not numbers. No knowledge of its 0-60 time will help you define its allure. We can and will quote impressive vehicle technical specs. But we would rather state our performance story differently: we have enough. To move you. In every way.

PERFORMANCE
The Revero delivers exhilarating performance thanks to its lightweight aluminum spaceframe construction and the near limitless torque produced by the vehicle’s dual electric motors. Acceleration off the line is linear, smooth and swift.

DRIVABILITY
Responsiveness has never felt so supple. The low, centrally-mounted battery pack gives the Revero an exceptionally low center of gravity and near 50:50 weight distribution. The auto-leveling suspension system adjusts its stance when it needs to for perfect poise in all road conditions.

EXTENDED RANGE
The Revero’s Lithium-ion battery powers its electric motors to turn the rear wheels – giving up to 50 miles of pure-electric driving range. After that, the gas-powered generator engages to propel the vehicle. Should you find yourself at the end of the Revero’s 300-mile range, you have flexibility: you may recharge the lithium-ion battery or simply fill the gasoline tank and continue on to your destination.
The solar roof not only charges the 12V battery, but also charges the high-voltage battery, adding to the electric range. Its unique pattern isn’t just for show. Our solar roof was developed for maximum efficiency by optimizing sunlight angles. It is an industry-first, and it is a signature element of our DNA.

The Revero’s monobloc six-piston calipers work in tandem with our regenerative braking technology to slow the Revero while recharging the high voltage battery. The powerful brakes resist fade, clamping down with steadfast confidence. This electronically-controlled system not only allows the Revero to operate efficiently, but also reduces wear on the brake components.
INFOTAINMENT

There is beauty in simplicity. An intuitive touchscreen interface controls the vehicle’s audio, navigation, and personal drive settings without complex toggles and switches. The elegant diamond design language is a Karma signature which echoes the diamond inlets on the front and rear of the car.

LEATHER

Vintners often invoke the scent of leather when crafting a new wine. The warm, earthy aroma of leather inspires us, it grounds us, it’s engrained in our memory. We use only minimal tanning and paint processes, allowing our leather’s alluring natural scent to fill the cabin. This vehicle was made to stimulate all your senses.

INTERIOR TRIM

Your Revero reflects your taste. Those who find inspiration in our modern world may be moved by carbon fiber. This aerospace-derived material lends a sharp texture to our dark and sport-focused interiors. For those of you with an older soul, only the warm unmanufactured touch of wood will do. Our wood trim comes straight from nature so each individual piece has its own story.
EXTERIOR PAINT COLLECTION

Borrego Black  Standard
Balboa Blue  Optional

Pacific Fog  Standard
Corona Del Sol  Optional

Morena  Optional
Mar Pacifico  Optional

Ocean Veil  Optional
Anza Desert  Optional
INTERIOR DESIGN COLLECTION

Palisades  Standard
Palisades Sport  Optional
Crystal Cave  Standard
Canyon  Optional
Salt Creek  Optional

WHEEL COLLECTION

22" Dune Twist
21" Diamond Facet
22" Dune Twist Midnight Chrome
22" Forged Multi-Spoke

BRake COLLECTION

Standard
Optional

22" Dune Twist
Slate caliper*
Silver caliper

21" Diamond Facet
Red caliper
Yellow caliper

22" Dune Twist Midnight Chrome
Orange caliper
Blue caliper

Optional caliper colors come with two-piece front rotors.
We are not for everybody, and we never will be.

No one needs a product like this.

We exist for those who have to have one.
Driving Range - Total: Up to 300 miles
Driving Range - Electric Only: Up to 50 miles
and Top Speed: electronically limited
Stealth mode: Acceleration 0-60 mph in 6.9 sec, 95 mph (153 km/h)
Sustain mode: Acceleration 0-60 mph in 7.2 sec, 95 mph (153 km/h)
Sport mode: Acceleration 0-60 mph in 5.4 sec, 125 mph (200 km/h)
Top Speed (electronically limited): 125 mph
Fuel Tank: 9.5 / 36 (US gal/L)
Gross Vehicle Weight Rating: 6,100 / 2,767 (lbs/kg)
Curb Weight: 5,400 / 2,449 (lbs/kg)
Turning Circle Curb-to-Curb: 40.4 / 12.3 (ft/m)
Luggage Compartment Volume: 6.9 / 195 (cu ft/liters)
Overall Height: 52.4 / 1330 (in/mm)
Overall Width (mirrors included): 84.0 / 2133 (in/mm)
Overall Length: 196.8 / 4998 (in/mm)
Wheelbase: 124.4 / 3160 (in/mm)

PERFORMANCE
Top Speed (electronically limited): 135 mph
Sport mode Acceleration 0-60 mph and Top Speed: 5.6 sec, 125 mph (200 km/h)
Sustain mode Acceleration 0-60 mph and Top Speed: 7.2 sec, 95 mph (153 km/h)
Steering Turns Lock-to-Lock: 2.7 turns
Drum Coefficient: 0.315 Co-efficient
Drum/Brake - Electric Only: Up to 50 miles
Drum/Brake - Total: Up to 200 miles

POWERTRAIN
Drive Type: Rear Wheel Drive
Electric Tractive Motors - Torque: 403 HP (301 kW)
Electric Tractive Motors - Power: 981 ft-lbs/1330Nm
Rear Drive Module (RDM): Single-ratio gearbox with limited slip differential

ELECTRICAL
Battery Type: Balanced 101-cell, 100% LiFePO4
Battery Capacity: 17.5 kWh
Battery Voltage: 347 V nominal
Charging Level I: Onboard 6.6 kW charger
Onboard 240 V @ 32 amps - Off-board charger can be used
Charging Level II: Onboard 7.7 kW charger
Onboard 240 V @ 80 amps - 100% state of charge
Mobile Charging Equipment: 6.6 kW mobile charge cord

GENERAL INFORMATION
Manufacturing Facility: Moreno Valley, CA
Drive Modes: Sport, Sustain, Stealth, Soft
Drive Mode Options: Sport, Soft (HV Battery and Generator)
Front/Rear Construction: Wheelbase
Overall Length: 194.1 in (4930 mm)
Overall Width: 84 in (2133 mm)
Overall Height: 52.4 in (1330 mm)
Luggage Compartment: 6.9 cu ft (195 liters)
Fuel Tank: 9.5 US gal (35 liters)
Gross Vehicle Weight Rating: 6,100 lbs (2,767 kg)
Curb Weight: 5,400 lbs (2,449 kg)
Turning Circle Curb-to-Curb: 40.4 ft (12.3 m)
Luggage Compartment Volume: 6.9 cu ft (195 liters)
Overall Height: 52.4 in (1330 mm)
Overall Width (mirrors included): 84.0 in (2133 mm)
Overall Length: 196.8 in (4998 mm)
Wheelbase: 124.4 in (3160 mm)

SUSPENSION AND STEERING
Suspension Type: Four-wheel independent suspension with 'Shocks Long Arm' (SLA) architecture
Front Suspension: Coil-aluminum upper and forged aluminum lower control arms, front subframe, roll hoop, crossmember, steering knuckle, front strut tower, 13 in diameter monorail strut tower
Rear Suspension: Coil-aluminum upper and lower control arms, front subframe, roll hoop, crossmember, steering knuckle, rear strut tower, 13 in diameter monorail strut tower
Steering Type: Rack and Pinion with variable ratio, electro-hydraulic power assist
Steering Wheel: Multifunctional controls (cruise, infotainment, climate, infotainment)

BRAKES AND TIRES
Brake Type: Four-wheel disc anti-lock brakes with panic brake assist (8x piston calipers front / 4x piston calipers rear)
Regenerative Braking: Blended three-mode regenerative braking system
Parking: Electrically-actuated rear parking brake
Traction: Electronic Stability Control (ESC), Traction Control System (TCS), 205/55R20 (summer) 245/40R21 (summer)
Front Tires: 255/35R22 (summer) 245/40R21 (summer)
Rear Tires: 285/35R22 (summer) 265/40R21 (summer)
Space Tire: 235/50R18 (backup)

COMFORT AND CONVENIENCE
Lights: Bi-xenon headlamps with automatic washer, LED interior lighting
Exterior Mirrors: Power, folding, auto-dimming
View Mirror: Rear View Distance Control (RDC)
Parking Assist: PDC

SAFETY
Airbags: Eight total airbags: two-stage driver/ passenger airbags, side-airbags, full-width side-curtain airbags, seat-curtain airbags
Child Seats: LATCH (Lower Anchors and Tethers for Children) compliant
Pedestrian Awareness: Advanced Driver's Assistance System (ADAS)
